Tonia T Boutique

When you identify a gap in the market you go for it! This was certainly one of the driving forces behind the creation of Tonia T Boutique offering clothing for real women for their everyday life. Success can be measured in many ways and the recent move to larger premises to cater for increased demand and the ongoing growth of the business reflects the hard work, commitment and business acumen of proprietor Tonia Tribe.

What the judges said:

This is a stand out retail business. The ability to identify and target a specific market sector and provide exceptional standards of product knowledge and customer service is one small contributing part to the success of this business. When you walk into the professionally fitted out boutique there is an immediate feeling that you are inside an exceptional retail business.
